Certificate of Insurance Information

In order to protect the Forest Preserve District of Will County from liability arising out of the activities associated with your function, the District requires that all individuals, groups and organizations desiring to utilize District lands and/or facilities for any activity or circumstance must first obtain a certificate of insurance, verifying comprehensive general liability insurance in effect as of the date of the event indemnifying the District in limits not less than \$1,000,000.00, combined single limit. Such insurance must specifically name the Forest Preserve District of Will County as an "Additional Insured."

Getting a Certificate of Insurance

If your organization has commercial or comprehensive general liability coverage, your agent should be able to provide you with the required certificate of insurance with the Forest Preserve District of Will County listed as an "Additional Insured."

If your group is an organization without insurance coverage, you could provide these instructions to your homeowner's insurance agent. Many times, your homeowner's insurance carrier will provide the required coverage as an endorsement to your existing policy and issue the certificate. If your agent does not know how to handle this, ask to speak to an underwriter at the insurance company's office.

If you cannot obtain the certificate from your homeowner's insurance carrier or you do not own a home, you may have to purchase a "special events" insurance policy through your agent or an insurance broker. The cost will depend on the nature of the group, the activities planned and the company's evaluation of risk.

You must provide the appropriate certificate prior to the processing of your event permit.
